

Double Sided Adhesive Tape

- **Pressure sensitive adhesive with release liner.**
Use on mats that slide around or curl and create a tripping hazard. Great choice for securing mats to metal carts and working station surfaces.
- **Multiple uses.**
Can be applied to concrete or sealed floors, metal carts, work benches, and just about any other hard surface.
- **Tape adheres to substrate.**
Easy to install and remove (but not re-use) with no damage to either the mat or substrate.

Art.	Description
ESD 80300	Tape, 51mm x 228m

Euro Grounding Block

- Designed to be mounted on under-side of benchtop or shelf.
- Supplied with screws and spare ring terminal.
- Black cord 3m long, exits via strain relief on left.
- Ultrasonically welded back cover prevents tampering.
- Fitted with three 1MW 1Watt resistors.
- 10mm, banana and shrouded banana connectors.

Art.	Description
ESD 80300	Tape, 51mm x 228m

Grounding point

- **Convenient connection to power socket.**
Enables grounding through mains earth.
