Relaxed Retraction Coil Cords

- **Relaxed retraction strength black PVC.**
More comfortable for some. Lower resistance to wearer's movements.
- **Superior strain relief tests in excess of 1,000,000 cycles, per Bending Life Test (exceeds by over 62 times the minimum requirement).**
Eliminates intermittent failures that can occur with less durable single and dual wire cords.
- **Improved snap design.**
Stronger strain relief and snap retention for long life and reliable circuit connections. Low profile keeps cord from disconnecting.
- **Superior banana plugs with patented supported spring contour.**
Fits into all standard banana jacks $\geq 0.398\text{cm}$ ID. Greater retention force; cords won't fall out and put you parts at risk. Provides long life, saving money.
- **Spring loaded 4mm or 10mm stainless steel constant contact snap.**
Provides constant electrical contact.
- **Tensile strength at each end in excess of 13.6kg (approximately 136 Newton).**
Longer lasting cord saves money.
- **One megohm series resistor at wrist end.**
To protect operator from accidental contact with equipment line voltage. Fulfills Paragraph 5.1.1 of IEC 61340-5-2.
- **Premium coil cords designed and manufactured at our Chino, CA, USA factory.**
Made in America under our control, ensuring consistent top quality.
- **UL listed.**
Assured safety and integrity.
- **Date coded.**
Lot traceability.
- **Designed to satisfy Wrist Cord requirements of IEC 61340-5**
